PROFESSIONAL SUMMARY

I am a Software Development enthusiast pursuing BTech in Computer Science and Engineering with a specialization in Cyber Security. Skilled in Java programming and secure application development, with hands-on experience in threat analysis, penetration testing, and tools like Nmap and Wireshark. Proficient in building secure applications using Java (Spring Boot, cryptography) and Python for automation. Passionate about innovative security solutions and safer digital environments through practical skills and continuous learning.

TECHNICAL SKILLS

- **Languages** : Java, SQL, JavaScript, HTML/CSS, Python
- **Frameworks & Tools** : Spring Boot, Hibernate, REST APIs, Git
- **Cybersecurity & Networking** : Nmap, Wireshark, Burp Suite, Metasploit, Kali Linux, Vulnerability Assessment, Penetration Testing, Secure Coding, Cryptography
- **Databases** : MySQL, MongoDB
- **Development Environments** : Eclipse, IntelliJ IDEA, VS Code
- **Cloud** : AWS (EC2, S3, RDS), Azure
- **Coursework** : DBMS, Object-Oriented Programming, Computer Networks, Operating Systems
- **OS & Platforms**: Linux (Kali/Ubuntu), Windows

EXPERIENCE

• Cybersecurity Job Simulation

[Certificate Link](#)

Mastercard | Aug 2024

- Identified and reported 15+ phishing threats through log analysis, improving team response time by 30%.
- Designed targeted security training modules for 3 high-risk departments, reducing incident reports by 25%.
- Collaborated with cross-functional teams to implement security awareness protocols aligned with PCI DSS.

PROJECTS

• Subdomain Enumeration Tool

[Github link](#)

Personal Project | Apr 2023

- Developed a Python-based tool using Streamlit, integrating crt.sh and Sublist3r APIs to scan 500+ subdomains/hour.
- Implemented multi-threading to improve scan efficiency by 40% and added export-to-CSV functionality.
- Technologies: Python, OSINT, API Integration, Brute-Force Techniques.

• Secure Password Vault using Java

Personal Project | Aug 2025

- Built encrypted password manager with AES-128-GCM & PBKDF2.
- Developed CLI + GUI interfaces with production-grade security features.
- Implemented rate limiting, memory safety, and automatic backup systems.
- Zero external dependencies - pure Java Standard Library implementation.

CERTIFICATIONS

- **ACE Multicloud Network Associate Course** | Ongoing | Expected Dec 2025

EDUCATION

• Bachelor of Technology (CSE - Cyber Security)

Haldia Institute of Technology | 2022–2026 | CGPA: 6.74 (till 6th sem)

• Higher Secondary (PCM)

J.L. College, Hajipur | 2021 | BSEB | 62.4%

• Secondary

Janta High School, Musepur | 2019 | BSEB | 71.8%

ACHIEVEMENTS & LEADERSHIP

- **Event & Management Head**, IEEE HIT SB | Led 5+ tech events with 100+ participants.
